Data Analyst

Currently switching my career towards data science after 8 years of experience in Major Accounts Service Delivery for IT Products/Advisory companies.

Skills

Programming Languages: Python, R, C++, HTML, CSS, JavaScript, php

Data Science Packages: NumPy, Pandas, ggplot, scikit-learn, BeautifulSoup

Techniques: Exploratory Data Analysis, Data Wrangling/Cleaning, Machine Learning (Regression, Classification)

Protocols: JSON, SOAP, REST, SIP

Databases: SQL, MongoDB, MariaDB, MySQL

IDEs: Pycharm, Rstudio

Version Control Systems: GIT

Operating Systems: Windows/Linux

Languages: French (Mother tongue), English (Fluent), Portuguese (Conversational), Spanish/German (Beginner)

Projects

- Personal (2014-2015)

Tennis player's performance: Scrapped data from ATP Website to analyse athlete's performances

Telegraph Fantasy Football: Analysed evolution of rankings within the Telegraph Fantasy online game for World Cup

Handball club's performance: Studied online data about my club's opponent in European Cup (Video + Scraping)

- Udacity Nanodegree (2014-2015)

Openstreetmaps: Wrangled data from OSM.org to clean entries relevant to my hometown

Red Wines Dataset: Built a regression model to determine wine quality based on given variables (chemical + others)

- Professional (2008-2015)

Reporting: Created dashboards and automated scripts to optimize my role's efficiency by merging data from several sources (Databases, CRM, BI Reports)

Education

2014 – 2015: Data Analyst Nanodegree – Udacity (In Progress)

2002 – 2007: Master's degree – ESIEA (Computer Science, Mathematics)

1999 – 2002: French Baccalaureate with honours (Mathematics, Physics, Chemistry)

Relevant Experience

June 2012 – Present: **Gartner Inc** – *Executive Client Manager Middle-East*

January 2011 – May 2012: **Symtrax Ltd** – *BI Solution Consultant*

February 2007 – December 2010: **Altitude Telecom** – *R&D Project Manager*

Interests

Sports: Competing in Handball & Football Championships. Youth National Level in Tennis

Technology: Keeping myself up-to-date with the latest technology via blogs/webinars/podcasts (Mashable/TED etc...)

Learning: Learning new skills through online courses/degrees and applying in personal projects

Travelling: Once a year, going somewhere I've never been before

Publications

- Gartner Research Notes

2013 - Let's Get Digital: A Template for Digital Business Strategy

Participated in the edition of this Note by gathering all government's digital strategies and analysing their scope.

2015 (In progress) – Big Data/Analytics Vendor Landscape for CSPs (Telco companies)

Currently working on publishing a Note about the vendor landscape for Big Data/Analytics vendors targeting CSPs
